

TALHA ÇAĞLAR

Computer Engineering Student | Linux, Systems & Security

+90 507 154 16 67 · talhacaglar@proton.me · talhacaglar.github.io · github.com/talhacaglar · linkedin.com/in/talhacaglar1

PROFILE

Computer Engineering student building Linux-focused systems, security tools, and desktop software. Combines enterprise IT and Red Team internship experience with hands-on development of SNMP/LDAP operations software, local-first Python applications, and terminal utilities. Treats reliability, reversibility, and technical documentation as core engineering requirements.

EXPERIENCE

PTT KULE AŞ. · Information Technology Intern Aug 11–Sep 7, 2026

Gained hands-on internship exposure to enterprise IT operations, technical support, and system processes.

İşbir Sentetik Dokuma Sanayi A.Ş. · Information Technology Intern Jul–Aug 10, 2026

Observed enterprise IT in a manufacturing environment and gained experience with hardware, networking, and user support workflows.

EMA Security LTD · Cyber Security Intern (Red Team) Oct 2025–Mar 2026

Supported security testing from a Red Team perspective and contributed to validating, documenting, and reporting technical findings.

SELECTED PROJECTS

PrintHub · Electron, Express, SQLite — SNMP v2/v3 printer discovery and monitoring; toner cost/inventory tracking; LDAP/Active Directory, RBAC, audit logs, and ISO/IEC 27001-oriented reporting.

Clar Focus · Python, Textual, SQLite — Task and Pomodoro management; focus blocking with reversible /etc/hosts markers; Omarchy bar integration.

Lexis · Python, PyQt6, SQLite — Keyless local-first desktop dictionary using open dictionaries; optional Gemini, SM-2 spaced repetition, import/export, and the AUR lexis-git package.

EDUCATION & TECHNICAL PROGRAM

Sakarya University of Applied Sciences · B.Sc. in Computer Engineering Oct 2023–Jun 2027 (Expected)

Siber Vatan · Applied Cyber Security Program Dec 2025–Mar 2026

Network and web security, attack/defense scenarios, and CTF exercises.

TECHNICAL SKILLS

Linux & Systems: Arch Linux, Bash, TCP/IP, DNS/DHCP, SNMP, LDAP/Active Directory, Git

Security: Nmap, Burp Suite, Wireshark, Metasploit, FFUF, OWASP Top 10, vulnerability assessment and reporting

Development: Python, PyQt6, Textual, SQLite, JavaScript/Electron, Java/Android, C/C++ fundamentals

Language: English — B2

CERTIFICATIONS & ACHIEVEMENT

CWSE — Certified Web Security Expert · HV-CWSE-ZNKC7QAY Feb 1, 2026

CAPT — Certified Associate Penetration Tester · HV-CAPT-2U0W5XSE Oct 2, 2025

Cisco Networking Basics Aug 24, 2025

TEKNOFEST 2024 · AllSpark Robolig Finalist — responsible for interface design within the team.
